That makes sense to me. Thanks!

*Valois*

**Subject:** FW: Meeting on Geochemical Monitoring and Modeling - request from NRC to have a pre-meeting to develop an agenda

Hi,  
Elise Striz from the NRC has requested we have a call to set up an agenda for our upcoming technical call. Would you be willing to be involved in this call, since you have a better handle than I do on the topics we should discuss? Also, would it be better to set up the call with Elise after our Thursday morning meeting?  
Thanks!

*Valois*

**Subject:** Meeting on Geochemical Monitoring and Modeling

Hi Valois,

I hope all is well with you and yours.

Last Thursday Bill and I had a conference with Doug Minter to follow-up on issues we had discussed with you in December 2019 concerning the Dewey Burdock draft Class III permit. We really appreciate that Doug reached out to us and we had a very productive call.

As one action item, we agreed that you and I should work together to schedule a meeting within the next two -three

## **Ex. 5 Deliberative Process (DP)**

that you could set up the meeting on Microsoft Teams, as it worked very well on the call with Doug. Unfortunately NRC has not stood up Microsoft Teams yet, so we have Skype and Webex, which are less than stellar. I can send you the list of participants from NRC, who are all technical staff for this meeting. I think it would also be useful to set up an earlier meeting between us very soon ( this week?) to work on an agenda so we can get a handle on topics and time.

Can you please let me know if this is agreeable to you?

Thanks so much,  
Elise
